# Highlights

## Philips Krypton bulb

A miniature bulb in which Krypton gas is used to increase the light output by up to 70% compared to a standard bulb.

## Pre-focused beam

Thanks to a pre-shaped lens and/or reflector the beam provides the optimal light output and focus.

## Splash waterproof

Rubber sealing rings and housing prevent water causing damage to the torch and allow you to use it in all weather conditions.

## Shock resistant

A special shock resistant plastic or rubber housing prevents damage to your torch caused by shocks.

## Anti-roll bar

A special shape in the housing of the lamp makes sure it will not roll away on a sloping surface and thus always keeps your torch close at hand.

## Nylon strap

This strap makes the torch easy to carry around and prevents it from falling if it accidentally slips out of your hand.
